

# Boost productivity with trusted AHDB resources

Explore our practical, farmer-focused resources on soil, forages, and nutrient management based on trusted independent research.

## Online

Go to [ahdb.org.uk](https://ahdb.org.uk) to find a wide range of technical information, tools, research reports and articles.

## Printed publications

Popular titles include:

- RB209
- Field drainage guide
- Principles of soil management
- Recommended grass and clover list
- Clover stick
- Sward stick

New guidance on forages coming soon.

To order AHDB resources, scan the QR code or visit [resources.ahdb.org.uk](https://resources.ahdb.org.uk)

## Events

Thinking about drilling a multispecies sward, but not sure if it'll work on your farm? Want some solid advice on managing your existing leys? Come along to a levy-funded AHDB event and hear from experts, including Liz Genever.

### Topics include:

- Picking the right seed mixes for your farm
- How to get your sward established (yes, including overseeding!)
- Grazing and silage tips to make it work in practice
- Making decisions based on weather and growth

### Dates:

- **24 September** – Northumberland
- **25 September** – Lancashire
- **30 September** – East Anglia
- **1 October** – Exeter
- **14 October** – Derbyshire

To find out more about these events and book your space, scan the QR code or visit [ahdb.org.uk/events](https://ahdb.org.uk/events)
