How do I select the right ram?

You can't predict how a ram's progeny will perform simply by looking at it. So make sure you take the time to find performance recorded rams of proven genetic worth.

Seek out the standard

- 1 Seek** – record rams with high indexes
- 2 Check** – ram's identity
- 3 Review** – EBVs with the breeder, or at: [signetdata.com](https://www.signetdata.com)

Profit from performance

High index rams can increase profitability by £3-4 per lamb. Over a ram's lifetime this is an extra £1,000.
